Sparc Kiosk

The Sparc is our most versatile kiosk solution. It is a sleek, sophisticated kiosk suitable for a wide range of applications. Some examples include corporate and hotel foyers, retail environments, galleries, exhibitions and conventions, information or transactional environments.

The Sparc features a 17" LCD monitor, stainless steel fascia and elegant curved aluminium sides. An interchangeable signage panel with optional backlighting provides prominent and effective branding. This can be upgraded with a second LCD display to run attract loops or advertisements if desired.

FEATURES

- Versatile and sophisticated design
